

Service White Paper – Virtual Enterprise

Target Customers:

- ✓ New companies without legal identity.
- ✓ Foreign companies want to try entering China.
- ✓ Companies with uncertain prospect.
- ✓ Companies seriously concern scalability.
- ✓ Short term business projects.

Role of HYT	Role of the Clients
<ul style="list-style-type: none"> ✚ As a local control center and maintain a communication log book, to keep track all dialogs, transaction records, quotation, costing details, and special incidents. The log can be online and opened to selected parties. ✚ As a logistics operator to take care all warehousing and transportation tasks. ✚ Use our legal identity to buy, sell, tax, QC, assemble and import/export. ✚ Optionally, use our legal identity to hire staff (typically for sales, purchase or quality). But the staffs must observe the discipline requirements of both the clients and HYT. Discipline reports can be provided on regular or irregular basis. 	<ul style="list-style-type: none"> ✚ Search and assign own business partners (suppliers, customers and /or sales channels). ✚ Specify a set of decision rules in advance, in order to provide consistent guidance on local operations arrangements. ✚ In case need to hire staff through HYT, the selection decision will be made by the clients. And the clients need to shoulder all related expenses including termination compensation. ✚ The clients must guarantee no illegal operations, include and not limit to smuggling, money laundering and pirated products.

Benefits:

1. Improve business scalability.
2. Minimize investment to almost zero.
3. Reduce the possible quitting cost in the future.
4. Subcontract all complicated Chinese affairs.
5. All system and staff can be transferred to new company, if the clients decide to establish their own in the future.
